

Griddle smooth Metos Diamante D72/10TFTE table top model

The Metos Diamante 70 D72/10TFTE electric grill table top model has a smooth steel surface. The grill has the temperature of which can be regulated between 110 °C...280 °C. The control panel has an indicator light, which illuminates when the grill zone is switched on.

The grill surface is welded to the exterior of the unit and is recessed by 40 mm, which provides a greater cooking surface and prevents dirt from collecting between the exterior and the surface of the grill. In addition, the grill surface can be inclined 10 mm to the front, which

allows grease to flow into the large grease trap.

Every detail of the strong, stylish and hygienic restaurant range series

Metos Diamante 70 has been planned as an efficient and functioning solution, from pre-treatment to the preparation of the food itself,

without forgetting the need to easily clean the range. Diamante 70

series ranges are available as a table top model as well as with its own

cupboard, as single or multiple combined units, and are suitable for use

in small to mid-sized to large kitchens. Laser cut hobs allow for the

seamless joining together of units into cleanly connected islands or

lines in places of heavy use, such as large kitchens.
